

GOIN' TO THE CORAL REEF

Words by Simone Mortan and music by Linda Arnold

Goin' to the coral reef

(Goin' to the coral reef)

Watch where you kick your feet!

(Watch where you kick your feet!)

Don't want to hurt the place!

(Don't want to hurt the place!)

Just want to see what's great!

(Just want to see what's great!)

First, we need our snorkeling gear

Put on your mask and flippers

Use your snorkel for your air

Let's dive into the water... "Splish, splash"

Sunshine and colors everywhere

Goin' to the coral reef

(Goin' to the coral reef)

Watch where you kick your feet!

(Watch where you kick your feet!)

Don't want to hurt the place!

(Don't want to hurt the place!)

Just want to see what's great!

(Just want to see what's great!)

Look over there!

Will we see a parrot?... "No!"

How about a parrotfish?... "Yes!"

Listen to that crunching sound

It's munching on the coral reef eating bits of algae

Let's swim on

What's that hovering in the coral reef?

Is that a trumpet?... "No!"

How about a trumpetfish?... "Yes!"

It's hiding in the coral reef to sneak up on its prey

Look, it slurped up a small fish for lunch!

Goin' to the coral reef

(Goin' to the coral reef)

Sun's going down now

(Sun's going down now)

Nighttime is falling

(Nighttime is falling)

The reef scene is changing

(The reef scene is changing)

Look over there!

Is that an angel?... "No!"

How about an angelfish?... "Yes!"

See how its colors get darker

Then it slips into a coral cave to sleep the night away

Will we see an army of soldiers living on the coral reef?... "No!"

How about soldierfish?... "Yes!"

Look, there's a whole school of soldierfish coming out for

Nighttime hunting on the coral reef

But, night's not safe for everyone

Is that a dragon?... "No!"

How about a dragon eel?... "Yes!"

He's prowling the reef flushing small fish from

Their hiding places in the cracks

Look out little reef fish!

Whew! That was close!

Goin' to the coral reef

(Goin' to the coral reef)

Watch where you kick your feet!

(Watch where you kick your feet!)

Don't want to hurt the place!

(Don't want to hurt the place!)

Just want to see what's great!

(Just want to see what's great!)

All right everyone

It's time to end our visit to the coral reef

Let's kick up to the surface

Head back to the shore

Take off your mask and flippers

And think about going back once more!

Back to the coral reef

(Back to the coral reef)

Watch where you kick your feet!

(Watch where you kick your feet!)

Don't want to hurt the place!

(Don't want to hurt the place!)

Just want to see what's great!

(Just want to see what's great!)

It was so much fun goin' to the coral reef!
