

## NIBBLE, BITE, GULP OR CRUNCH

Words and Music by Linda Arnold

A fish's mouth says a lot about the food it eats

A fish's mouth gives us clues

About its favorite treats

Many mouths with different sizes

Different shapes for tasty prizes

Nibble, bite, gulp or crunch

Tells us what they like for lunch

A fish's mouth never lies about what's on its mind

A fish's mouth gives us clues

About the favorite foods they find

Sharp teeth bite

Strong jaws crunch

Tiny teeth nibble

And big mouths gulp their lunch

A fish's mouth says a lot about the food it eats

A fish's mouth gives us clues

About its favorite treats

"I'm Sharpy, the shark, and I like to bite slippery fish."

"I'm Polly, the Parrotfish, and I like to scrape and crunch algae."

"Hi I'm Nibbles, the Butterflyfish, and I nibble tiny shrimp and worms."

"I'm Gulpy, the Grouper, and I like to gulp crabs and fish."

A fish's mouth never lies about what's on its mind

A fish's mouth gives us clues

About the favorite foods they find

Sharp teeth bite...like a shark!

Strong jaws crunch...Parrotfish!

Tiny teeth nibble...Butterflyfish!

Big mouths gulp their lunch...Grouper!

Many mouths with different sizes

Different shapes for tasty prizes

Nibble, bite, gulp or crunch

Tells us what they like for lunch

A fish's mouth says a lot about the food it eats

Nature makes many different teeth

For catching food on the coral reef
