

# **DO YOU KNOW WHAT MAGIC IS?**

Words and Music by Linda Arnold

**There were some kids and a short giraffe  
Skipping along a crooked path  
Close behind, a happy clown  
Was gently tip-toeing around  
Well, they came to a candy store  
Bought some gumdrops and balloons  
And turned into moons**

**Oh, do you know what magic is?  
Have you been to rainbow land?  
Or seen a dinosaur go sailing by?  
Any kid can help you try**

**There were some kids on a merry-go-round  
They rode their ponies all over town  
They had some birthday cake and pizza pie  
Poor little Toby got an olive in his eye  
Then they rode off in the wind  
And called their wooden ponies  
“Pepperonies”**

**Oh, do you know what magic is?  
Have you been to rainbow land?  
Or seen a dinosaur go sailing by?  
Any kid can help you try**

**There were some kids at a movie show  
They took their seats and it started to snow  
And then it rained all over the place  
Poor little Katy got ice cream on her face  
Then they opened their umbrellas  
And they flew off in the sun  
Just having fun**

**Oh, do you know what magic is?  
Have you been to rainbow land?  
Or seen a dinosaur go sailing by?  
Any kid can help you try**
