

I WISH I WAS MAGIC

Words and Music by Michael and Patty Silversher

I wish I was magic
I'd magically find
A secret passage traveling
Through space and time
To far away places that I've only seen
In story books and picture shows
And in my dreams

I wish there were forests
Where wings grew on trees
I'd pick some off
Try them on and soar on a breeze
See the man in the moon
Take a side trip to Mars
And fill my pockets full of stars

I wish I may
I wish I might
Be the wish you wish tonight
And if the wish you make comes true
Magic shines on you

'Cause wishes are magic
And wishes having wings
The sky's full of wishes
When the whole world sings
I wish I may, I wish I might
There's a wish on every star that's bright
The wish I wish tonight for you
Is that every wish you make comes true
