

GARDEN IN THE CITY

Words and music by Linda Arnold

**There's a garden...there's a garden
In the city...in the city
With flowers...with flowers
So pretty...so pretty
Like a rainbow...like a rainbow
With colors bright**

**It's a small space but a magical place
Our garden in the city
It's a small space but a magical place
Our garden in the city**

**Oh, what happiness a garden can bring
When the sun shines bright
And the birds begin to sing**

**There's a garden...there's a garden
In the city...in the city
With butterflies...with butterflies
So pretty...so pretty
Like a rainbow...like a rainbow
With colors bright**

**It's a small space but a magical place
Our garden in the city
It's a small space but a magical place
Our garden in the city**
