

# MATH JOURNEY

Words and music by Linda Arnold

Six times seven is forty-two  
Count on me, and I'll count on you  
For a journey, math journey  
Why hesitate, when we can calculate?  
4 times 3 times 2 times 1, that's...24!  
Wasn't that fun?  
Do the math  
(Yeah!)  
Do the math  
(Yeah!)  
Math journey!

From ancient Greece to modern day  
Math has helped science on it's way  
Math is a tool, math is a key  
Math is an opportunity!  
Calculator alligator!

Six times seven is forty-two  
Count on me and I'll count on you  
For a journey, math journey  
Why hesitate when we can calculate?  
Multiply, subtract, divide  
Let's all do our math with pride  
Do the math  
(Yeah!)  
Do the math  
(Yeah!)  
Math journey!

Six times seven is forty-two  
Count on me and I'll count on you  
For a journey, math journey  
Why hesitate when we can calculate?  
Multiply, subtract, divide  
Let's all do our math with pride  
Do the math  
(Yeah!)  
Do the math  
(Yeah!)  
Math journey!

(Yeah!)
