

LOVE YOU TO THE MOON AND BACK

Words and music by Linda Arnold

**I love you. You're my little star
I love you to the moon and back
My heart knows what a gift you are
I love you to the moon and back**

**To the moon and back, I'll follow your star
To the moon and back, isn't really too far
For my heart knows, what a gift you are!
I love you to the moon and back**

**May you find joy as the years unfold
I love you to the moon and back
May you grow wise, and your dreams be bold
I love you to the moon and back**

**To the moon and back, I'll follow your star
To the moon and back, isn't really too far
For my heart knows, what a gift you are!
I love you to the moon and back**

**To the moon and back, I'll follow your star
To the moon and back, isn't really too far
For my heart knows, what a gift you are!
I love you to the moon and back**

I love you to the moon and back
