

MORNING SUN

Music and lyrics by Ariel Thiermann

Little one, in my arms
I will keep you safe from harm
Sweet dreamer, how you glow
As I rock you soft and slow

You shine so bright
Like the morning sun
You share your light
With everyone

Gentle hands, open wide
Honest eyes with nothing to hide
Fearless heart, beating strong
Learning how to sing your song

You shine so bright
Like the morning sun
You share your light
With everyone

I'm gonna love you through it all
Watch you fly, watch you fall
Help you learn, help you grow
Rock you soft, rock you slow

I'm gonna love you through it all
Watch you fly, watch you fall
Help you learn, help you grow
Rock you soft, rock you slow

Little one, in my arms
I will keep you safe from harm
Sweet dreamer, how you glow
As I rock you soft and slow

You shine so bright
Like the morning sun
You share your light
With everyone

**I'm gonna love you through it all
Watch you fly, watch you fall
Help you learn, help you grow
Rock you soft, rock you slow**

**I'm gonna love you through it all
Watch you fly, watch you fall
Help you learn, help you grow
Rock you soft, rock you slow**

**I'm gonna love you through it all
Watch you fly, watch you fall
Help you learn, help you grow
Rock you soft, rock you slow**

I'm gonna love you
